TOBACCO POSSESSION POLICY

Reconstructed public copy. The original standalone tobacco policy link on AJHAE's former website host is broken. This copy uses the tobacco language preserved in AJHAE's board-adopted 2026 student discipline materials rather than creating new policy language.

Students are prohibited from using, selling, purchasing, distributing, possessing, or attempting to possess tobacco products or related paraphernalia on school property or at school functions or events.

AJHAE's board-adopted student discipline materials identify tobacco-related paraphernalia as including e-cigarettes, vapor-based nicotine products, and lighters.

Violations are subject to disciplinary action under the School's Code of Conduct.
